

Year Group reps

Y1 Amber – Indy Coral – Elouise Apricot – Alan (absent)	Y2 Ochre –Isabella and Jonathon Cinnamon – Abu (absent) Saffron – Rafique	Y3 Mint –Sarah and Waid Jade –Amaya and Joben Emerald - Zainab
Y4 Cobalt – Anayah Azure - Giulia Turquoise – Elias	Y5 Lavender – Luke Indigo – Loren (absent) Violet – Emmanuel (absent)	Y6 Copper – Pawin (absent) Brass – Shakiyra, Harrison (deputy) Bronze – Nuru (absent), Sian (deputy)

Behaviour

- We need to improve listening.
- We like assemblies and like it linking to stories linked to our rules or Mr Hyde growing up.
- Lining up is an issue
- “its not fair that other children don’t do the right thing and everyone has to miss their playtime”

World Environment Day – Thursday 5th June

- We’d like to raise money for an animal charity and helping the animals in the worl. We agreed WWF. Children suggested dressing up as an animal, or wearing a t-shirt with an animal on or bringing in a toy animal. We discussed how nothing new should be bought for this as the point is to raise money for charity and the environmental impact of new ‘throw away’ items such as dressing up.

Environmental issues arising

- Paper – it was questioned about guided practise sheets being thrown in the bin and how these could be presented in a different way so that it wasn’t just used for a few minutes and then thrown away.
- Children raised sticking sheets in books and that it is paper on paper on paper and that it is endless.

- They raised that we use lots of glue sticks and that they are bad for the environment because they are plastic and don't get recycled. Someone suggested using PVA instead.

Fundraising

- I'd like to help animals around the world. We've been learning about animals in school and I've seen Koalas in the bushfires in Australia Y1
- I think we should raise money for the school. I'd like more plants in the playground. Perhaps we could have a growing competition.
- For local hospitals or charities. Or donating toys to the hospital waiting room.

Health

- We need to eat more healthily
- Everyone should have clean water.

I am arranging for a guest speaker from WE.org to come and work with the school council on the afternoon of Tuesday 17th March. They will work on empowering the children to have a voice and how they can go about having their voice heard. We will concentrate on environmental issues.
